

It's time to get more out of life

Hear all the sounds that shouldn't be missed.

Oticon More hearing devices are built from the perspective of stimulating the brain in ways that it needs to make more sense of sound. You will benefit with **improved speech understanding** with **less listening effort** and the **ability to remember more**.

Oticon More also supports direct streaming from both Apple® and Android™ devices, so you'll hear phone calls, video chats, music, and videos with perfect stereo sound.

Rechargeable:

- Just three hours to give you a full day of battery life, or quick charge for 30 mins for 6 hours of battery life.
- More convenient, reliable, and less waste.

Discreet

- Tiny case that sits behind the ear and comes in a range of colours to match all hair colours and skin tones.

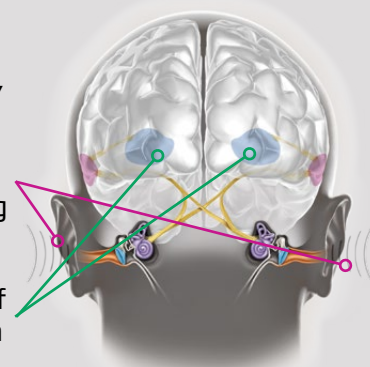

Did you know?

We hear with our brains, not with our ears.

Your ears work together to pick up sound occurring around you.

Your brain makes sense of sounds by matching them to sounds stored in your memory

Direct Streaming:

Works with iPhone and most Android devices.

- Hands-free phone calls.
- Rich stereo sound when listening to music and video.

Oticon ON app

- Adjust the volume, change the listening program, check the battery level, and more from your mobile phone.

Call us to arrange a free, at-home trial of an Oticon More model that best suits you!
